INTRODUCTORY

The aim of this work is to give a complete and accurate index to the public and private educational system of the United States. The information has been thoroughly revised to date, and before final printing of the book, proofs submitted to the various school officials for final revision and correction.

In the main *Geographical Classification*, in addition to the public school officials, will be found a complete list of all schools and colleges, together with information as to the kind of school, class of students admitted, religious denomination, year established, and the name of the governing head of the institution. A second complete list of all institutions is given in the *Classified Directory* in which the schools are arranged alphabetically by states, classified according to the kind of school, giving a ready reference or complete list of any particular class of institution, together with the names of the executive officers. A complete *Alphabetical Index* of all schools and colleges will be found at the back of the book from which any institution may be instantly located.

The *Public School System* is fully covered by lists of the state educational officials and county superintendents of schools, the city boards of education, city superintendents, public high schools and principals, and the directors and supervisors of special subjects. A list of the more prominent *Libraries* with the name of the librarian and number of bound volumes, is included in the present volume. An *Educational Business Directory* is also given, which will be found

of much value to the school executive as a convenient and ready reference list of reliable manufacturers and dealers supplying every known need of the school and college.

It is believed the work will be found of value to every one in any way associated with educational institutions, or engaged in educational work. Acknowledgment is made to the various State and City Superintendents of public instruction, private school officials, librarians and others for their kind co-operation and assistance in furnishing data and information necessary for the completion of the volume. While no labor has been spared in the effort to have the work as accurate as possible at the time of going to press, continual changes necessarily preclude absolute accuracy.

School officials, librarians and others will confer a favor by notifying us of changes, and by calling our attention to any inaccuracies or omissions in any department of the work.

THE PUBLISHERS.

SCHOOL TEXT-BOOK COMMISSION

Public school text-books are required by state law to be furnished free by the several towns. There is no State Text-Book Commission and no state uniformity of text-books.

STATE TEACHERS' ASSOCIATION

MRS. GRACE DODGE, <i>President</i>	Boothbay
CLYDE RUSSELL, <i>Secretary</i>	Augusta

COUNTY SUPERINTENDENTS OF SCHOOLS

Maine has no county superintendents of schools, but has what is known as the Union System of School Supervision. The towns and cities of the state, of which there are 500, are combined into groups by the State Commissioner of Education, and the members of the school committees of the towns in these groups elect one person to serve as superintendent of schools of the group or union, devoting his whole time to that work. The only exception to this arrangement is in the case of towns or cities having more than seventy-five teachers. These are allowed to elect a Superintendent of Schools to serve that town or city alone.

SUPERINTENDENTS OF SCHOOLS

Vermont has the town system of schools. The schools of the state are chiefly under the direction of superintendents who give their full time to this work. Any town or city may elect a town superintendent or may combine with other towns in a supervisory district. The superintendents of these districts are elected by the local directors subject to approval by the State Board of Education.

NORTH CENTRAL COLLEGE is a liberal arts college, Christian, but not sectarian. It has the highest rating from the University of Illinois, the North Central Association of Colleges, and the Association of American Universities. It enrolls approximately 500 students from twenty states and several foreign countries. It is ideally located at Naperville, Illinois, on the Burlington Railroad and U.S. Route 34 and Illinois 65, twenty-five miles west of Chicago. Its equipment is superior: a million-dollar endowment, 50 acres of campus and playing fields, fine library, well-equipped science hall, beautiful and commodious chapel-music building, attractive dormitories, and one of the finest physical education buildings in the middle west.

North Central offers a standard B.A. course with majors in twenty departments; semi-professional four-year courses in Commerce and Physical Education; courses for Teachers, entitling graduates to certificates in Illinois and other states; pre-professional, two to four-year courses of high grade in Medicine, Dentistry, Law, Theology, and Engineering, entitling students to a B.A. degree after three years at North Central and one year at the professional school, thus saving one year; standard courses in Music, leading to degrees of Bachelor of Music and Bachelor of Music Education.

Expenses are exceptionally moderate. There are scholarships for first honor graduates of high schools, ministers and ministers' children, and children of World War veterans.

North Central welcomes especially students of superior ability.

Day, Evening and Home Study Training

TO THE MAN who must make every dollar invested in trade training pay personal dividends it is important to know that U.E.I. instruction is geared to the needs of the day. Upon graduation, the U.E.I. man has a fund of up-to-date, usable knowledge balanced by shop-learned experience of a most practical kind. Very likely this is why so many U.E.I. graduates "click" with employers or, if they operate businesses of their own, make such fine progress.

BLUEPRINTING MACHINERY

A variety of types and sizes are available to suit particular requirements. The continuous vertical type employs a revolving glass cylinder and will handle work of any length up to 42" wide, the arc lamp as well as the machine itself motor driven. The non-continuous vertical type uses segments of curved glass, will handle only sheet work, while the arc is raised with a hand crank and dropped by gravity. The horizontal type of continuous machines are motor driven, and are available for work up to 54" wide, the length being unlimited. Mechanical and shop drawings, graphs, sketches, typewritten quizzes, records, specifications, notices, lesson sheets, reports, and other matter can be quickly reproduced.

BOOKS

School boards and teachers are convinced of the advisability of providing for pupils' supplementary reading, and the number of adequate school libraries is constantly increasing. New books must be added to these libraries regularly if they are to be popular with the children. Boys and girls should be encouraged to think of books as part of the joy of life, and reading in no sense a duty.

BULLETIN BOARDS, CHANGEABLE

These boards are being made in several different types. In one type the letters, which are die cut, can be had in various sizes and colors, and these letters are held on to the board by tabs which fit into slots. Another type uses letters which are printed on individual cards and which fit into slides in the board. Their usefulness lies in the ease with which bulletins may be changed or altered at will.

CARD INDEX SYSTEMS

Card indexes are used in schools for records of all kinds for the student, library, laboratory, and office. Just what system will be found preferable for each use will depend to a considerable extent on the information required and the size of the card used, as well as the amount of usage the file will receive. Where constant and frequent reference is required, a visible system may often be used. See, also, Filing Equipment.

DEODORANTS

Only materials that actually destroy and remove foul odors may be properly termed deodorants. Products that merely cover one odor with another that is stronger are neither practical, efficient, nor economical.

International Chemical Company,
3130 S. Canal St., Chicago

DEODORIZERS

This equipment is a means of destroying bad odors in a room or building. Some of the types actually spray a deodorizing chemical into the air, while others allow the material to evaporate and mix with the air in the room. They are especially valuable in large school assembly rooms where there is danger of the air becoming stale.

WHAT IS IT WORTH TO YOU--

TO know that the stage requirements of your auditorium will be thoroughly understood; that the same genius which created practically all the outstanding developments in stage equipment and rigging during the last quarter of a century is applied to the problem of originating equipment for your individual stage.

AND to know also that all equipment installed is guaranteed and will maintain its initial efficiency throughout the period of its use.

THE value of such service cannot be measured or compared. Yet, it costs nothing. For in PETER CLARK, INC., installations you pay only for the equipment and the cost of installing it.

PRODUCTS: Complete Stage Rigging for Schools, Colleges, Auditoriums; Stage Hardware; Asbestos, Fire and Sound-proof Curtains; Draw Curtain Tracks; Electric Curtain Machines; Portable Motion Picture Booths; Portable Bleachers; Sectional Grandstands; Stage Draperies and Curtains.

FENCES, SCHOOL

In addition to added property protection and ornamentation, fencing the school yard and playground will be found a wise precaution for safeguarding school children. A substantial fence and gates keep the children within bounds, bar intruders at all times, control admission, and lessen the burden of supervision. Special fences are likewise essential for the tennis court, campus, and athletic field.

POSITIVE CONTROL
NORTON
DOOR CLOSERS

Because so much importance is attached to orderly, quiet, trouble free control of doors, educational institutions should have the most efficient closers.

The Norton positive control assures no surge, slam or jar—the Rack and Pinion principle engineers perfect control and silent closing where desired.

The Norton lubricating system is guaranteed against leakage. The Norton packing nut (an exclusive feature) permits the use of mineral oil, the correct lubricant for working parts.

Norton Positive Control reduces strain on hinges and doors—a decided saving in time and labor.

GUARANTEE—Norton Door Closers are guaranteed.

SERVICE—Norton engineers and designers offer their recommendations without obligation.

SEXTON SELLS MORE TRAINED BUYERS THAN ALL OTHER WHOLESALE GROCERS

These Are Equally Divided
Between Men and Women

Women buyers judge largely by intuition. Appreciate immediately the value of new products in brightening their service. Weigh the value of the product in their individual service rather than by a price standard alone.

Men buyers depend upon careful analysis. Slower to accept new items because they prefer to have things more standardized. Sometimes overemphasize price as a factor in their determination.

Buyers for the institutional and restaurant field are skilled in the technique of appraising foods. They make full use of scientific methods of ascertaining food cost.

Sexton sells to 60,000 individual units in this great market. The growth of the company has been based entirely on quality and service. A policy of fine merchandise, carefully packaged, fairly priced and promptly delivered has won the confidence and good will of these trained buyers.

Schoolrooms

For the interior lighting of schoolrooms, the Benjamin "Type 79" Glassteel Diffuser is admirably adapted. It provides excellent distribution of light for general illumination, and is beautifully designed and constructed.

Night photo of the Ashtand College athletic field, Ashtand, Ohio, lighted with Benjamin Concentrating Type High Mounting Units. Notice remarkably uniform level of illumination throughout the playing area.

LIKE miniature golf, tennis, baseball, etc., high school football has entered the realm of nighttime sports, and now parents, too, can attend the games.

Philosophically, this development in high school athletic games means more enjoyment for more people, since the leisure hours of most adults are confined to the evening.

Installation of equipment is merely a matter of days. The cost of current is negligible, and Benjamin equipment pays for itself in a short time by the increased attendance.

Benjamin equipment meets the needs of the various types of athletic fields. Write for data sheets.

LATHES

Lathes for school shops are of two types; those for metal working and those used in the woodworking courses. The metal-working lathes used by schools include the speed lathe, the engine lathe, and the turret lathe. The engine lathe is probably the most used since all work such as turning and screw cutting is done on it. The turret lathe which is used for multiple operation work will be found only in schools teaching advanced machine shop courses. The speed lathe is used almost exclusively for small operations such as polishing, etc.

CRANE VALVES

2500 Pounds

School men should consider pennies by saving vs. dollars by economy

It is shortsighted to lavish equipment on one department at the expense of another. But how much economy will plumbing and heating stand? Certainly by purchasing inferior materials efficiency is not only lowered, but the health of children is endangered. Then, too, it is an experiment that is paid for by increased maintenances, costly repairs and expensive replacements.

Crane engineers have studied this problem. They are prepared to offer a solution to it . . . to lower the cost of plumbing and heating systems without endangering either efficiency or the building budget. Already they have done it for numberless schools throughout the country. If you will drop into the nearest Crane Exhibit Rooms, you will be shown how they can do it for you.

PIANOS

Pianos are a necessary part of all school equipment, every school building being provided with one or more instruments. Schools having an auditorium should provide a grand piano. In schools where piano lessons are given, each practice room must have an instrument. In the grade schools a special small sized piano which can be moved from room to room is often used. This piano is also low enough that the teacher can see over the top of it and direct the singing of the class while playing.

PHOTO-MURALS For Unique Wall Decoration

The science and art of photography have created a new, beautiful and practical form of wall ornamentation that is particularly adaptable for the decoration of schools and colleges.

Anything that can be photographed can be made the subject of a photo-mural—exterior and panoramic views of your buildings and grounds, original drawings, old prints, etc.

Photo-mural decoration brings to you a new medium of interior decoration, available in sepia or hand colored in oils, that creates atmosphere and will harmonize with your established decorative scheme.

Photo-murals make admirable
and artistic memorials of dis-
tinguished service. Suggest them
to your friends and alumni.

The Copley Prints

are particularly adaptable to this
type of decoration such as Ab-
bey's Holy Grail, symbolizing
the never-ending crusade of
civilization for the Triumph
of Right over Evil.

PRINTING OUTFITS—SCHOOL

The teaching of printing in schools as part of their vocational work has met with much favor. In addition to its vocational value, printing teaches the use of punctuation marks, the making of proper margins, the use of good English, correct spelling, capitalization, and indentation in an accurate manner. School printing outfits are designed for the smallest schools to largest universities.

Small, portable projection units for showing still pictures on a projection screen. These use 35-mm film in the form of filmstrips (single frame and/or double frame), 2 x 2 miniature slides, or a combination of all these. The wattage of the projector lamp determines the brilliance of the image and the size of the audience that can be served. Various focal length lenses determine the size of the image on the screen. The films are either in rolls or cut and bound in small slides which are inserted in various types of horizontal carriers and semi-automatic slide changers. See, also, Stereopticons.

SCHOOL BELLS See, Bells**SCHOOL BOND ISSUES**

Investors are constantly seeking school bonds. For that reason School Districts can usually obtain better terms and higher prices for their securities than any other class of corporate body. Firms specializing in the issuing and marketing of school bond issues place their information and experience at the disposal of any School Board.

SCHOOL WANDS**SCHOOLHOUSES, PORTABLE**

Portable school houses, made of either wood or sheet metal, are factory built in large quantities and carried in stock ready for immediate shipment. They are delivered in sections, plainly marked, that they may be easily erected in a few days. They can be taken down at will and moved to another location. They are used for emergency needs to solve the pressure for more space, or where economy is necessary.

STATUARY

Statuary furnishes educational and illustrative material for several departments, from ancient history to art, and it serves a practical use when given to the school as a memorial from classes and organizations. Very good reproductions of well-known "originals" are furnished in marble, bronze, or composition. When determining the material from which the statue shall be made, purchasers should consider the usage to which it will be put, whether it will be a feature of the exterior or interior of the school building, and whether it will be used as subject matter for art or other classes.

Jacobsen 4-Acre Power Lawn Mower

Beautiful School Lawns At Lower Cost

WELL kept school lawns, buildings and equipment are important in moulding the ideals and habits of the student. There is a Jacobsen model for every lawn, large or small.

The Jacobsen 4-Acre Heavy Duty Mower is used by the largest colleges and universities. With or without riding sulky it will cover more ground per day than any other mower of same size, and with a lower upkeep cost than any other walking-type power mower. It has a 24-inch reel, an enclosed gear drive, auto-type differential, separate clutch control

of traction and cutting unit, self-sharpening reel and other outstanding refinements. A Sickle-Bar clipping attachment may be had which clips dandelions and other weeds at the same time the lawn is mowed.

The "Junior" Power Mower is a quality Jacobsen Product with a 19-inch cutting reel. Suitable for moderately large lawns—particularly efficient on terraces.

WASTE PAPER BUYERS

Every school accumulates large quantities of waste paper which may be profitably baled and sold. See, also, Paper Balers.

WATER COLORS

Permanence of hue, evenness of texture, and smoothness in application on paper are some of the qualities essential for good water colors. They are furnished for school use in either the cake form, or the tube containers. See, also, Art Materials; also, Drawing Materials.

WINDOW SHADES

In the lighting of the schoolroom, much care should be exercised in the control of daylight through the use of proper shades. Shade cloth should be used which will tone the light to give eye-comfort, and bar out injurious glare. A good shade cloth will not crack, wrinkle, or show pin holes with usage.
